Professional Summary

Data Analyst with a Cognitive Science degree from UC San Diego and experience using Python, SQL, Tableau, and Excel for data analysis, reporting, and visualization. Skilled in maintaining accurate records, documenting processes, coordinating workflows, and identifying operational inefficiencies. Demonstrated reliable follow-through through managing daily operations for 60+ employees and standardizing financial recordkeeping for a \$5,000 annual budget.

EDUCATION

University of California, San Diego

Sep 2022 - Jun 2026

Bachelor of Science, Cognitive Science: Design and Interaction

La Jolla, CA

- **Achievements:** Provost Honors
- **Coursework:** Linear Algebra, Statistics, Data Visualization, Data Structures and Algorithms, Java Programming, Computer Organization and Systems Programming

PROJECTS

Data Analysis and Visualization Projects

- Python | SQL | CSV | Tableau
- Cleaned, transformed, and analyzed structured datasets using Python and SQL, checking data quality and consistency to identify trends, relationships, and operational insights.
- Designed Tableau dashboards to communicate quantitative findings, support workflow tracking, and enable data-driven decision-making.

Area and Perimeter Measurement iOS Application

- Built an interactive SwiftUI and MapKit application that enabled users to place and edit polygon points, calculate area and perimeter, save location records, and convert measurements across units.
- Built an interactive mapping application enabling users to place and edit polygon points, calculate area and perimeter, save locations, and convert measurements across units.

EXPERIENCE

UCSD Housing Dining Hospitality

Sep 2022 - Jan 2025

Student Manager

La Jolla, CA

- Coordinated daily operations for 60+ employees, managing staff schedules, task assignments, workflow tracking, and performance documentation to streamline processes and keep service delivery on schedule.
- Maintained accurate operational records, verified procedural details, and applied process documentation practices when communicating updates across teams, ensuring consistent service and reducing documentation errors.
- Identified workflow inefficiencies and implemented clearer communication and training processes, improving collaboration, strengthening data accuracy, and reducing delays.
- Earned promotion within 12 months for demonstrated performance, reliability, and leadership.

UCSD Circle K International

Apr 2024 - Apr 2025

Treasurer

- Managed financial planning, budgeting, and reporting for a \$5,000 annual budget using Microsoft Excel; analyzed expenses, maintained accurate records, and prepared spreadsheet reports to support informed spending decisions and optimize future allocations.
- Established a centralized bank account and standardized recordkeeping procedures, improving data accuracy, security, accessibility, and consistency across financial records.
- Coordinated preparation and submission of required IRS and university documents with administrators and nonprofit partners during the 501(c)(3) reinstatement process, applying data-analysis techniques in Excel to ensure compliance and successfully restore the organization's tax-exempt status

Skills

Technical Skills: Python, SQL, Tableau, Microsoft Excel, Data Analysis, Data Visualization, ArcGIS Online (foundational), Java, SwiftUI, HTML/CSS, Figma, Spreadsheet Management, Dashboard Reporting

Core Strengths: Data accuracy, Record keeping, Process improvement, Technical problem-solving, Customer support, Process Documentation, Workflow Tracking

Languages

- English(Fluent)
- Spanish(Native Proficiency)

Certifications

- Google Data Analytics Professional Certificate: In Progress
